Girl Guides of Palestine

Notes:

Baden-Powell visited Scouts and Guides in Palestine in 1921.

1921 Churchill visited the spot where the Hebrew University was to be built on Mt. Scopus. Churchill climbed the hill, escorted by Boy Scouts and Girl Guides. He gave a speech, then planned to plant a tree, but it broke when they handed it to him, so they found a measly palm, which didn't grow and later had to be pulled out.
